**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 25 and 26 are rejected under 35 U.S.C. 102(b) as being anticipated by Gregg (US patent 6,217,072).

The patent to Gregg discloses the invention as is claimed. Gregg discloses a tool comprising an elongate member (12, fig.2) having a tether (28) at one end thereof. The tether is fixed to one end of the elongate member and defines a loop. A clip member (14, fig.7) is configured to removably receive a section of the elongate member and to be removably attached to a support structure. The clip member removably joins the elongate member to the support structure via a first substantially C-shaped portion (defined by mounts 118 in conjunction with planar member 104, see figure 8) and a second substantially C-shaped portion (84).

With respect to claim 25, defining that the tool is “for pressing a portion of a disposable cleaning wipe” does not act to distinguish from Gregg. The device of Gregg could be used in any manner so desired. It could be used with a mop, as nothing would prohibit such. It is noted that applicant is only claiming the tool, not the combination of tool with mop. Likewise, the tether of Gregg is “configured to secure” the elongate member to any structure so desired, including a handle as claimed. While Gregg discloses the tether as for a hand of a user, it could be placed around a

handle just as easily. Nothing prohibits such use. Note that Applicant is not claiming a handle in claim 25, but only the tool. In similar manner, the clip member of Gregg is “configured to removably receive” a section of a handle or any structure so desired. While the clip member is disclosed as for removably receiving a leg of a user, it could receive a handle just as easily. Nothing prohibits such use. Note that applicant is not claiming a handle in claim 25, thus interaction of the tether or the clip with a handle is not required. All that is required is that the tether or clip are capable of interacting with a handle. Such appears be the case, as least as far as claimed.

### ***Response to Arguments***

Applicant's arguments with respect to claims 25 and 26 have been considered but are moot in view of the new ground(s) of rejection.

As set forth above, Gregg discloses a tool that can be used as claimed to press a portion of a cleaning wipe into a grip assembly. Further, it appears that the clip member can be used as claimed. Nothing would prevent such use.

### ***Allowable Subject Matter***

Claims 17-24 allowed.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

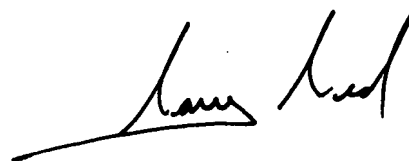

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary K. Graham whose telephone number is 571-272-1274. The examiner can normally be reached on Tuesday to Friday (6:30-4:00).
